- **PostgreSQL :** Handling the data's and queries.

CERTIFICATION

- Most Determined Employee
  Centizen Inc (2024)
- Creative Coder
  Centizen Inc (2023)
- Programming in C
  (Skill Rack)
- Soft Skills and Personality
  (NPTEL)
- English for Competittive Exam
  (NPTEL)

PROJECTS

Zenbasket Admin (E-Commerce Application)

Admin dashboard for Zenbasket, facilitating easy management of orders, Mail logs and Blog managements.

Technologies Used : Angular , Node, HTML5, CSS3 , Javascript,Typescript , Restful APIs, expressJS and Angular material.

Mail Microservice

The mail microservice is a service module that integrates with functions responsible for sending emails to users/customers in different scenarios, such as order updates, sign-ups, password recovery, etc. This service module is planned to be implemented using the concept of a unique key template in a separate repository, integrating with the API and MySQL database.

Technologies Used :   NodeJS, Javascript, Restful APIs, expressJS

Zenbasket POS

Working and R&D on POS system various modules for ZenBasket backend works, empowering merchants to efficiently manage sales, inventory, and customer interactions. Implemented features such as customers , discounts, order processing, and payment integration to streamline checkout processes and enhance operational efficiency.

Technology Used: NodeJS ,ExpressJS,Javascript, Restful APIs
